WATER, AIR, AND SOIL POLLUTION / *Volume 179 Nos. 1–4 February 2007*

Editorial

M. HART and J. T. TREVORS / Electronic ecology 1

Mini Review

L. S. FISHER, P. A. MAYS and C. L. WYLIE / An Overview of Nitrogen Critical Loads for Policy Makers, Stakeholders, and Industries in the United States 3–18

Original Articles

CHIUNG PIN LIU and BOR HAN SHEU / Effects of the 921 earthquake on the water quality in the upper stream at the Guandaushi experimental forest 19–27

BEATA DUDZIŃSKA–HUCZUK and JERZY BOLAŁEK / Particulate selenium in the baltic sea atmosphere 29–41

S. M. ALMEIDA, M. M. FARINHA, M. G. VENTURA, C. A. PIO, M. C. FREITAS, M. A. REIS and M. A. TRANCOSO / Measuring air particulate matter in large urban areas for health effect assessment 43–55

LIZETTE R. CHEVALIER and JEMIL N. YESUF / Spreadsheet Optimization for Parameter Estimation of Pressure–Saturation Equations Used for Two-Phase Groundwater Flow 57–65

SUMIT SEN, BRIAN E. HAGGARD, INDRAJEET CHAUBEY, KRISTOFOR R. BRYE, THOMAS A. COSTELLO and MARTY D. MATLOCK / Sediment Phosphorus Release at Beaver Reservoir, Northwest Arkansas, USA, 2002–2003: A Preliminary Investigation 67–77

SIMONE LORENA QUITERIO, GRACIELA ARBILLA, GLAUCO FAVILLA BAUERFELDT and JOSINO COSTA MOREIRA / Polycyclic Aromatic Hydrocarbons and their Molecular Diagnostic Ratios in Airborne Particles (PM10) Collected in Rio de Janeiro, Brazil 79–92

TERESA MORENO, ANTHONY OLDROYD, IAIN MCDONALD and WES GIBBONS / Preferential Fractionation of Trace Metals–Metalloids into PM_{10} Resuspended from Contaminated Gold Mine Tailings at Rodalquilar, Spain 93–105

MATS ÅSTRÖM, PETER ÖSTERHOLM, ILONA BÄRLUND and SIRKKA TATTARI / Hydrochemical Effects of Surface Liming, Controlled Drainage and Lime-Filter Drainage on Boreal Acid Sulfate Soils 107–116

MUKESH SHARMA, EDWARD MCBEAN and APRIL GOWING / Bioconcentration of Dioxins and Furans in Vegetation 117–124

O. ETCHEBERS, M. A. M. KEDZIOREK and A. C. M. BOURG / Soil Water Chemistry as an Indicator of the Reproducibility of Artificially Contaminated Soil Mesocosms 125–134

RICHARD O. MINES JR., LAURA W. LACKEY and GLEN H. BEHREND / The Impact of Rainfall on Flows and Loadings at Georgia's Wastewater Treatment Plants 135–157

BRIAN L. BENHAM, DAVID H. VAUGHAN, MEGAN K. LAIRD, BLAKE B. ROSS and DANNY R. PEEK / Surface Water Quality Impacts of Conservation Tillage Practices on Burley Tobacco Production Systems in Southwest Virginia 159–166

YONGMING HAN, ZHANGDONG JIN, JUNJI CAO, ERIC S. POSMENTIER and ZHISHENG AN / Atmospheric Cu and Pb Deposition and Transport in Lake Sediments in a Remote Mountain Area, Northern China 167–181

JOANNE COOPER, JOHN ANTHONY BOLBOT, SELWAYAN SAINI and STEVEN JOHN SETFORD / Electrochemical Method for the Rapid on Site Screening of Cadmium and Lead in Soil and Water Samples 183–195

KENSHI KATAHIRA, MIHO ISHITAKE, HIROSHI MORIWAKI, SYUSAKU YOSHIKAWA, OSAMU YAMAMOTO, TADAO FUJITA and HIDEO YAMAZAKI / Method for the Estimation of the Past Illegal Dumping Recorded in a Sediment Core 197–206

EFFAT A. MORSY, AHMAD Z. AL-HERRAWY and MOHAMED A. ALI / Assessment of *Cryptosporidium* Removal from Domestic Wastewater Via Constructed Wetland Systems 207–215

Research Papers

DAVYDA M. HAMMOND, MELINDA M. LALOR and STEVEN L. JONES / In-Vehicle Measurement of Particle Number Concentrations on School Buses Equipped –with Diesel Retrofits 217–225

M. STRACQUADANIO, G. APOLLO and C. TROMBINI / A Study of PM2.5 and PM2.5-Associated Polycyclic Aromatic Hydrocarbons at an Urban Site in the Po Valley (Bologna, Italy) 227–237

CHANG SEOK LEE, JEONG SOOK MOON and YONG CHAN CHO / Effects of Soil Amelioration and Tree Planting on Restoration of an Air-Pollution Damaged Forest in South Korea 239–254

TAKAOMI ARAI, MADOKA OHJI and TAKAFUMI HIRATA / Trace Metal Deposition in Teleost Fish Otolith as an Environmental Indicator 255–263

M. SAGER, JIN HEE PARK and HYO TAEK CHON / The Effect of Soil Bacteria and Perlite on Plant Growth and Soil Properties in Metal Contaminated Samples 265–281

GIOVANNI PRATESI, MATTEO ZOPPI, THOMAS VAIANI and FRANCESCA CALASTRINI / A Morphometric and Compositional Approach to the Study of Ambient Aerosol in a Medium Industrial Town of Italy 283–296

YONG HUA HE, DONG SHENG SHEN, LI FANG HU and YIN MEI ZHU / Study on Metsulfuron-Methyl Degradation in Simulated Wheat (*Triticum Asetivum* L.) Rhizospheric Soil with *Penicillium* sp. Inoculation 297–307

GIACOMO GEROSA, FEDERICO DERGHI and STANISLAW CIESLIK / Comparison of Different Algorithms for Stomatal Ozone Flux Determination from Micrometeorological Measurements 309–321

ANNE MERETE SMELHUS SJØENG, ØYVIND KASTE, KJETIL TØRSETH and JAN MULDER / N Leaching from Small Upland Headwater Catchments in Southwestern Norway 323–340

CARLOS OYARZUN, CLAUDIA ARACENA, PATRICIO RUTHERFORD, ROBERTO GODOY and AN DESCHRIJVER / Effects of Land Use Conversion from Native Forests to Exotic Plantations on Nitrogen and Phosphorus Retention in Catchments of Southern Chile 341–350

DAVE CRAW, CATHY RUFAUT, LAURA HAFFERT and LORRAINE PATERSON / Plant Colonization and Arsenic Uptake on High Arsenic Mine Wastes, New Zealand 351–364

DILARA OUSMANOVA and WAYNE PARKER / Fungal Generation of Organic Acids for Removal of Lead from Contaminated Soil 365–380

BIN HUA, BAOLIN DENG, EDWARD C. THORNTON, JOHN YANG and JAMES E. AMONETTE / Incorporation of Chromate into Calcium Carbonate Structure During Coprecipitation 381–390

JEFFREY M. MORRIS and JOSEPH S. MEYER / Photosynthetically Mediated Zn Removal from the Water Column in High Ore Creek, Montana 391–395
